Summary

From the moment I produced "Hello World" in the console of my first application, I knew I was hooked into the world of software development. and I knew that software development has never been "just a job" for me, it's offered an engaging challenge to continually learn and improve my skills in creating high-quality software. what started with a simple "Hello World" has become a full-fledged passion that only gets more exciting as the years go by.

Experience

Delegate

MOIC " Model Organization Of Islamic Co-operation" Egypt

Oct 2018 - Jun 2019 (9 months)

- I was one of the best three economics delegates for the season for being so active positive, and Initiative.
- For seven-sessions we studied and discuss many economics topics and in the 8th session We formed teams of two and re-explained the topics briefly, without defects to delegates from other committees
- In the graduation conference my team was representing Egypt and I was the leader of the team and the only economics committee member of the team so I made two researches for the team in the main conference agenda and represented Egypt with my team as the Head of the Egyptian delegation.
- In many sessions we formed a small team of the committee and made so much interesting research, economic and social experiments, and Debates.
